Heroes in the Home
Caregiver Recognition Award 2018

Kevin Pidduck

Kevin is the type of individual who can and will do anything for his family to keep them safe and well cared for. He is an amazing role model and tenacious advocate who doesn't take no for an answer and never gives up.

Kevin became a hands-on caregiver more than a decade ago providing support to his mother-in-law Eleanor, which has allowed her to enjoy her final years at home surrounded by her beloved family and pets. Kevin is a one-man act, managing meals, feeding, cleaning the house, doing laundry and making sure everything runs smoothly. In addition, Kevin has accompanied her to medical appointments, taken her for walks when she was still able to do so, and has done everything possible to ensure her well-being.

Kevin has also been the main caregiver for his wife Kathy for the past couple of years, supporting her through illness, accompanying her to numerous chemotherapy treatments and medical appointments while taking care of the household inside and out.

Kevin is described as a wonderful human being, husband, father and friend whose strength is empowering. His dedication and diligence in providing care is second to none, even putting his own health and well-being second to caring for others. No matter how challenging the task, Kevin never gives up! Kevin has sacrificed his free time and interests and devoted his life to caring for his family.

Kevin, thank you for your tireless dedication as a caregiver. You are truly a Hero in the Home!
